BM/TI FORGED FITTINGS

There are various standards that govern the manufacturing of forged pipe fittings, including ASME/ANSI B16.11, ASTM A105, and MSS SP-83. The size range and pressure ratings of forged pipe fittings can vary depending on the material and specific product. Generally, they range from 1/8" to 4" in size and can handle pressure ratings up to 6000 PSI for all types of forged fittings such as Forged Elbow, Forged Tee, Forged Coupling, Forged Union, Forged Cap, Forged Plug.
